

JUNIOR PROJECT MANAGER (m/f)

As Junior Project Manager, you support our experienced project leaders with their tasks in project coordination and execution in a close and cooperative way. You become acquainted with our operative day-to-day business and quickly take over separate projects or project parts.

Your Tasks

As part of our interdisciplinary team, you are involved in the realization of sophisticated software and hardware solutions of the future.

You support the project management in internal communication as well as in communication with customers and partners.

You demonstrate your organizational and economical skills in scheduling, budgeting, personnel planning and follow-up.

With fresh ideas, you actively shape our solutions for the automotive industry.

We Offer You

An interesting work environment in a highly motivated, dynamic project team

State-of-the-art topics in the field of the automotive future

An attractive customer environment from the international automotive industry

Exciting and varied activities with individual development opportunities

Creative leeway and short communication channels in a flat hierarchy

Your Profile

A degree in technical studies, preferably with focus on electrical engineering, computer science, business management and engineering, or a comparable vocational training (B.Sc./M.Sc./FH/TH)

High interest in vehicle electrics and electronics

Distinctive communication skills in contact with customers and the project team

A high degree of personal responsibility, economical thinking, and assertiveness

Very good knowledge of the English language in speech and writing
