

# TECHNICAL EDITOR

As a technical editor, you are responsible for the creation of technical documentation for our innovative software solutions for the automotive industry. In consultation with colleagues from development, production and project management, you create and maintain use-case-oriented operating manuals as well as training and maintenance documents and assist in the further development of the editorial system.

## Your Tasks

With team spirit and drive, you obtain data, information and documents necessary for the technical documentation.

You demonstrate your organizational skills in the timely preparation of technical documentation in compliance with current standards and norms.

With your editorial sense, you describe complex technical contents in understandable and clear form.

## We Offer You

An interesting work environment in a dynamic team

An attractive customer environment from the international automotive industry

Exciting and varied activities with individual development opportunities

Creative leeway and short communication channels in a flat hierarchy

Flexible working hours for a balance between work and leisure

## Your Profile

Successfully completed training or studies as a technical editor or comparable qualification

Ideally first work experience in technical documentation

Very good knowledge in technical illustration and image editing, knowledge in Adobe Creative Suite would be an advantage

Good MS Office skills (Word, Excel, PowerPoint, Outlook)

Independent work and methodical approach

Good written and spoken English knowledge
